

IT Medical Solutions

Overview

IT Medical Solutions was founded based on the concept that each pharmacy and long term care facility have unique ways of doing business and come across different issues regarding their IT hardware requirements. At IT Medical Solutions, we do just that... find the solution that best fits the requirements. We have hardware experts and partners that can fulfill all of your needs from e-MAR /EMR solutions, workstations, networking teams, medical specific appliances like Digi Pens, the ClearScribe solution and Zoom MD applications. The medical industry needs an IT provider that understands their specific needs and requirements. IT Medical Solutions is here to do just that.

e-MAR

As more and more long term care facilities are moving into the electronic era, e-MAR is becoming more and more prevalent. Here at IT Medical Solutions, we have been working very closely with two of the largest software application companies in Canada and over 40 companies in the USA. We are currently on our 5th generation of our e-MAR hardware solution and it is working flawlessly in the LTC facilities where it has been launched.

EMR

As the world moves to **E**lectronic **M**edical **R**ecords, the demand for state of the art technology hardware increases. IT Medical Solutions provide equipment for a seamless transition from traditional paper records to today's sophisticated electronic systems.

Hardware

We can provide a one stop shop for all off your IT hardware needs and requirements. As a certified Dell reseller, we can build hardware solutions for you that meet your specific needs and requirements at very competitive prices. This all comes with the unmatched Dell warranty and service. Whether it is servers, workstations or portable computing devices, we can get it all for you.

Our custom cart mounted and mobile handheld devices are built for us to exacting specifications that ensure enough processing power to handle any computing task that is required by the software.

We can also source other hardware to include items such as printers, fax machines and storage devices.

Other Services

IT Medical Solutions is also a certified reseller for MMI Med Carts. These are the lightest and one of the most durable medication administration carts on the market as well as being very competitively priced.

We are also resellers of the Canadian made Manrex Med Carts.

Before you dispose of that old med cart, why not have our staff at "The Cart Doctor" come and take a look at it. Our experts can do everything from replacing locking systems, changing drawer rails, casters, straightening frames and removing dents from old and abused carts.
